A practical place to stay

Who this invitation is for

Hotels, concierge teams and serviced-apartment providers near hospitals in China. Sino RX is an independent medical travel facilitator. We coordinate practical arrangements; hospitals provide medical care.

Location and accessibility

Describe the route to nearby hospital entrances, travel time, lifts, step-free access, bathroom layout and transport options. State access limitations clearly so guests can assess suitability.

Long stays and flexible plans

Provide clear long-stay rates, deposits, cancellation terms and options for extending a stay. Explain cleaning, laundry, meal options and companion accommodation, including any additional charges.

An interpreter-friendly front desk

Be willing to coordinate check-in and practical questions with an interpreter. Tell us the languages and contact hours available. Accommodation staff are not expected to provide nursing or medical advice.

Patient choice

We may present suitable options to patients, who choose their own provider. Accessibility and room availability must be confirmed for each booking. No hospital endorsement is implied.

Start a conversation

What providers can receive

Inquiries from guests considering a medical trip, with practical needs communicated by agreement. There is no guarantee of referrals, bookings or volume. Any commercial terms are discussed and confirmed in writing.

What to send

Email your property or business name, city, address, website and business contact. Include distances to relevant hospital entrances, accessibility details, long-stay rates and cancellation terms. Concierge teams can describe service areas and languages. Do not send patient records.

How cooperation begins

We discuss suitability and clarify practical arrangements. Before a listing or referral, agree written terms and accurate property information. Guests confirm their chosen accommodation, charges and cancellation rules with the provider.

Separate payments

Patient consultation with Sino RX is free. Our separate coordination fee is quoted in writing and paid to Sino RX. Hospital fees are paid directly to the hospital. Accommodation and other third-party charges are identified separately.
